About Us

Unijules Life Sciences Ltd.:

Your Global Ally in Holistic Wellbeing

For over 85 years, Unijules has been a leading Indian pioneer in health solutions, bringing the power of nature and science together. We are a trusted manufacturer and exporter of Herbal, Nutraceutical, Pharmaceutical, and Injectable products, empowering well-being in over 40 countries worldwide.

Driven by Innovation, Fueled by Passion:

Our dedication to research and development goes beyond formulas. We delve into global health trends, understanding diverse needs, and crafting cutting-edge solutions to address them. From boosting immunity to managing chronic conditions, our science-backed nutraceuticals cater to a spectrum of concerns.

Unmatched Quality, Every Step of the Way:

From our state-of-the-art facilities exceeding WHO-GMP, GMP, ISO 22000-2018, and ISO 9001-2015 standards, to our innovative technologies like Direct Compressible Granules and Premix & Pellets, quality is woven into the very fabric of Unijules. This relentless pursuit ensures superior product efficacy and safety.

A Symphony of Expertise:

Our multidisciplinary team is a harmonious blend of over 300 seasoned professionals-doctors, pharmacists, chemists, nutritionists, research scientist & regulatory as well as export experts-working in passionate collaboration. This diverse knowledge pool fuels excellence in everything we do, from meticulous formulation to seamless production and dedicated customer support.

Trust Unijules:

Your Partner in a Healthier Tomorrow:

We believe in building long-term, mutually beneficial relationships with our partners. By offering reliable, high-quality nutraceutical solutions and responsive customer support in your region, we strive to be your trusted ally in promoting optimal health and well-being.

Join hands with Unijules and experience the power of Indian innovation with a global reach. Together, let's elevate well-being around the world

Our Pillars Of Excellence

At **Unijules**, we believe our true strength lies not just in cutting-edge facilities and innovative technologies, but in the expertise and dedication of our people. We call them our Pillars of Excellence, and each team plays a vital role in crafting your trusted source of nutraceutical solutions.

Nutritional Architects

Our team of seasoned nutritionists meticulously evaluate the latest scientific research and market trends to understand specific health concerns and craft optimal formulations that address them effectively.

Master Formulators

Our pharmacists and formulation development experts possess deep knowledge of pharmaceutical principles and nutraceutical ingredients. They translate nutritional needs into potent and efficacious formulas, ensuring the right dosage and delivery systems for optimal absorption and results.

Analytical Guardians

Our dedicated analytical development team, composed of skilled chemists and pharmacists, safeguard the quality and consistency of every product. They develop and implement rigorous analytical methods to evaluate every ingredient, ensuring all specifications are met, and the final product is pure and potent.

Production Masters

Our production team, also comprised of experienced chemists and pharmacists, brings these meticulously crafted formulas to life. They orchestrate every step of the manufacturing process with precision and care, adhering to the highest quality standards and safety protocols.

Quality Sentinels

Our vigilant Quality Assurance and Quality Control team, again powered by chemists and pharmacists, stands guard over every aspect of quality. They continuously monitor systems, personnel, and raw materials, conduct meticulous in-process checks, and rigorously test finished products and their storage conditions, ensuring unwavering quality, safety, and efficacy.

Regulatory Navigators

Our team of regulatory experts possesses in-depth knowledge of international regulatory requirements. They ensure smooth compliance with all relevant regulations, expediting registrations and market access, so you can focus on bringing optimal health solutions to your customers.

Customer Support

Building Partnerships for Success At **Unijules**, our commitment to excellence extends far beyond product delivery. We believe in building long-term partnerships with our clients, ensuring their success every step of the way.

Your Production Support Team

Our dedication goes beyond the initial supply of Nutraceutical semi finished formulations. We provide comprehensive production support, helping you seamlessly integrate our materials into your manufacturing process. Our experts offer technical guidance, troubleshoot any production challenges, and ensure smooth transitions for optimal results.

Analytical Assistance at Your Fingertips

We understand the importance of accurate and reliable analytical testing. Should you encounter any issues during your internal testing procedures, our team of analytical experts is always ready to assist. We offer prompt consultations, data interpretation support, and even collaborative troubleshooting to ensure your final products meet the highest standards.

By harnessing the collective expertise and unwavering dedication of these Pillars of Excellence, Unijules delivers on its promise of excellence in every nutraceutical product you receive

The Rise Of Nutraceuticals

A Booming Market Fueled by Wellness....

A Global Surge in Demand:

The world is witnessing a remarkable shift towards proactive health. In the wake of the pandemic, awareness of preventive measures and natural approaches to well-being has skyrocketed. This has translated into a significant surge in the demand for nutraceutical supplements.

Beyond Hype, a Sustainable Trend:

This increase in demand is not merely a temporary reaction to current events. It's driven by several powerful factors:

- **Growing focus on preventative healthcare:** People are increasingly recognizing the importance of taking care of their health before facing illness. Nutraceuticals offer a convenient and accessible way to support overall well-being.
- **Rise of chronic conditions:** The prevalence of chronic health issues like diabetes, heart disease, and obesity is a major concern worldwide. Nutraceuticals can play a role in managing these conditions and improving quality of life.
- **Increased scientific evidence:** Research continues to unveil the potential health benefits of various nutraceutical ingredients, boosting consumer confidence and trust in these products.

Nutraceuticals: Claiming their Share of the Healthcare Landscape:

The growing demand for nutraceuticals is also reflected in their market share within the healthcare sector. Currently, Nutraceutical supplements hold a significant 7-8% share of the global healthcare market. This share is expected to steadily increase in the coming years, as nutraceuticals become even more integrated into mainstream healthcare practices.

Partner with Unijules and be a part of the exciting future of nutraceuticals!

We Welcome

- **Manufacturer of Nutraceutical Products**
- **Repackers Of Nutraceutical Products**

Your Pain Points, Unijules Solutions..

- **Restricted Imports of Finished Packed Formulations**

Our Semi-Finished Solutions breeze through import regulations, opening doors to new markets.

- **Formulations & Development Headache For You ?**

Leave the complex formulations and tech worries to our experts. We will offer you best quality semi-finished formulations which can be effortlessly produce as finished dosage at your facility.

- **Analytical Development of Complex Nutra Formulations Got You Down ?**

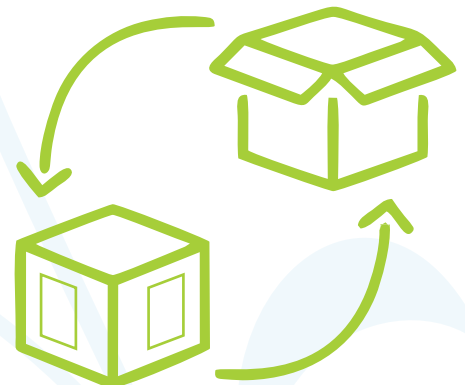

Ditch the in-house lab struggles for analytical development. Our technical team ensures to provide you perfect method of analysis for complex nutraceutical products, to ensure quality of product.

- **Multiple Ingredients Inventory is Really Burden**

Say goodbye to managing mountains of ingredients. We deliver streamlined supply of semi-finished formulation which need to further ingredients to add at your end or may be very few ingredients to finalise as finished product. We want freeing you to focus on what matters most.

Re-Packers

Simplify bulk import of ready to pack Tablets, Capsules, Syrup, Cream & Powder & pack at your facility to boost local employment.

Ready to Unleash Your Nutraceutical Potential? Let's Chat ! ...

What We Offer To Manufacturer

We offer a variety of ready-to-use semi-finished products that let you finalize them at your facility, saving you time, resources, and hassle.

Direct Compressible Granules (DC Granules) For Tablets

By using our DC Granules (Single ingredients or multi-ingredients) manufacturer can produce Tablets at their facility effortlessly. Most of the times no ingredients needed to add before compression, while in some formulation lubricants needed to add and mix freshly just before tablet compression.

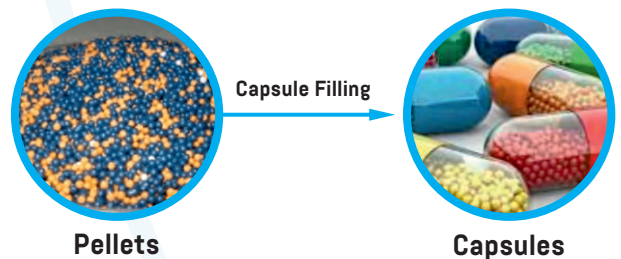

Premix Powder for Capsules or Powder Sachets

Our premix powder is ready to fill in Capsules or sachets or in bulk Jar.

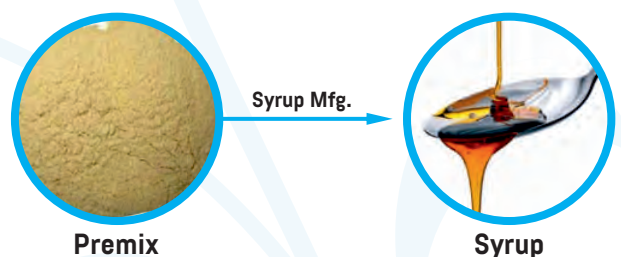

Pellets for Capsules

Precision-made pellets, perfect for filling capsules with ease.

Premix for Syrup

We offer premix powder to manufacture certain syrup formulations. By using our premix for syrup manufacturer can produce syrup by adding some sweetener, flavour and water.

What We Offer To Our Partners

Premix for Cream

We offer premix powder to manufacture cream by adding mostly water and sometime couple of ingredients at client facility.

Ready to Pack Tablet, Capsules, Powder, Cream & Syrup

We also offer all above dosage ready to do primary and secondary packing at manufacturer end.

- Bulk packaging: Efficient and cost-effective delivery in 25Kg or 50Kg double polybags, further secured in aluminum bag and HDPE drums.
- Expert guidance: We provide detailed production guidelines for each product, ensuring seamless integration into your existing processes.

Boost your local presence and conquer new markets with Unijules' flexible solutions

○ Our Unmatched Supports

Your Bridge to Nutraceutical Success

At **Unijules**, we believe success is a shared journey. That's why we don't just supply high-quality semi-finished products; we become your trusted partners, providing comprehensive support at every step even after supply of products.

1. Detailed Manufacturing Process for Easy Production:

No need to decipher complex formulas! We provide clear, step-by-step manufacturing guides for tablets, capsules, syrups, and powders manufacturing using our DC granules, pellets, and premixes.

2. Expert Troubleshooting, Always a Click Away:

Encountered a production hiccup? Our dedicated technical team is just a call away. We offer online guidance and, if needed, personal visits to ensure smooth production.

3. Unlocking Complex Analyses:

Developing cutting-edge nutraceutical products? We provide detailed methods of analysis for even the most intricate formulations, empowering your team to deliver consistent quality.

4. Analytical Assistance, When You Need It:

Facing a technical difficulty during analysis? Don't fret! Our analytical experts are here to help. We offer support to ensure accurate and reliable results, every time.

Support After Supply Is Our Signature To Your Success.

Unlock a Multitude of Benefits with Unijules Semi-Finished Products

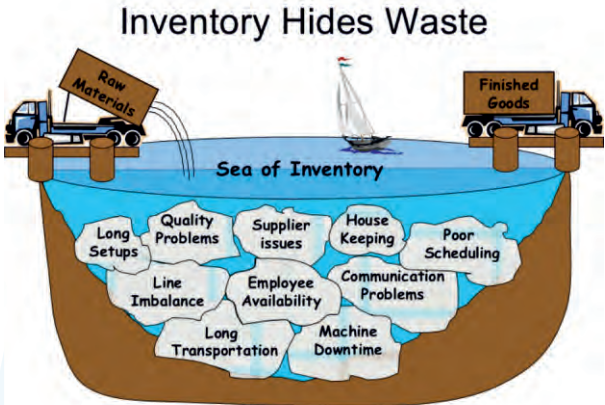

Conquer Import Restrictions:

Bypass restrictive regulations with our convenient DC granules, premixes, and pellets. Skip the finish product import hassle and manufacture locally with ease.

Streamline Inventory Management:

Ditch the ingredient clutter! Our semi-finished solutions replace mountains of individual ingredients with a single, streamlined inventory, saving you space, capital, and manpower.

One-Stop Supplier, Complete Peace of Mind:

Leave the sourcing headaches behind! We're your all-in-one solution for diverse nutraceutical needs. Focus on building your brand, we'll handle the rest.

Reduce Transport Costs, Maximize Profits:

Syrup formulations? Our premixes make a world of difference! They minimize freight costs, representing just 5-10% of your final product weight. Maximize your margins and boost your bottom line.

Fast-Track Production, Hit Shelves Sooner:

Skip complex steps and lengthy processes. Our semi-finished products translate into streamlined production, meaning faster go-to-market and quicker time to shelf.

Minimize Production Footprint:

Less machinery & equipment, less space – embrace a leaner production setup with our versatile solutions. Optimize your manufacturing needs and maximize efficiency.

Simplify Analysis, Save Time and Resources:

Forget analyzing countless ingredients! Our pre-tested semi-finished products require minimal testing, saving you valuable time and resources.

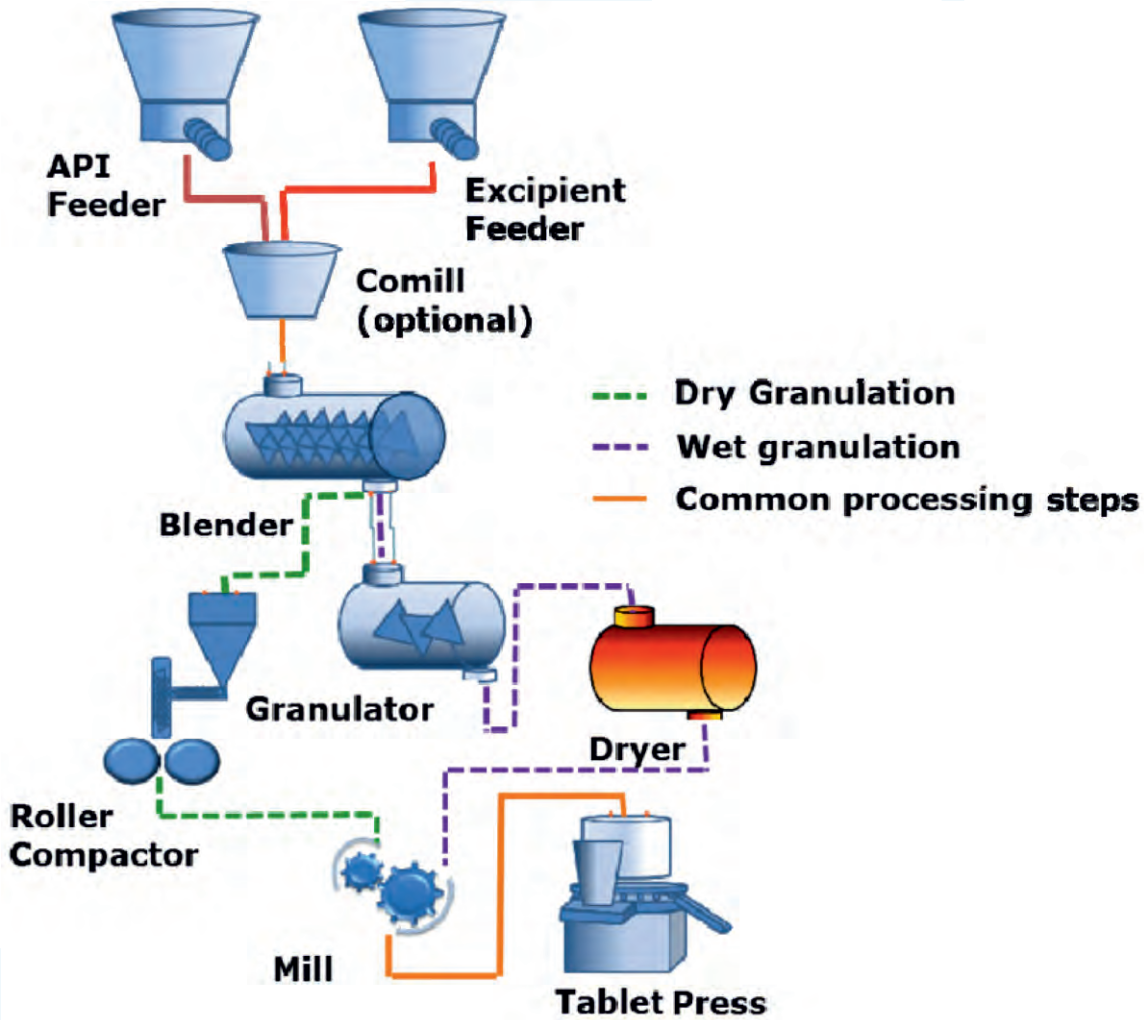

Unijules: Your Partner for Growth and Efficiency:

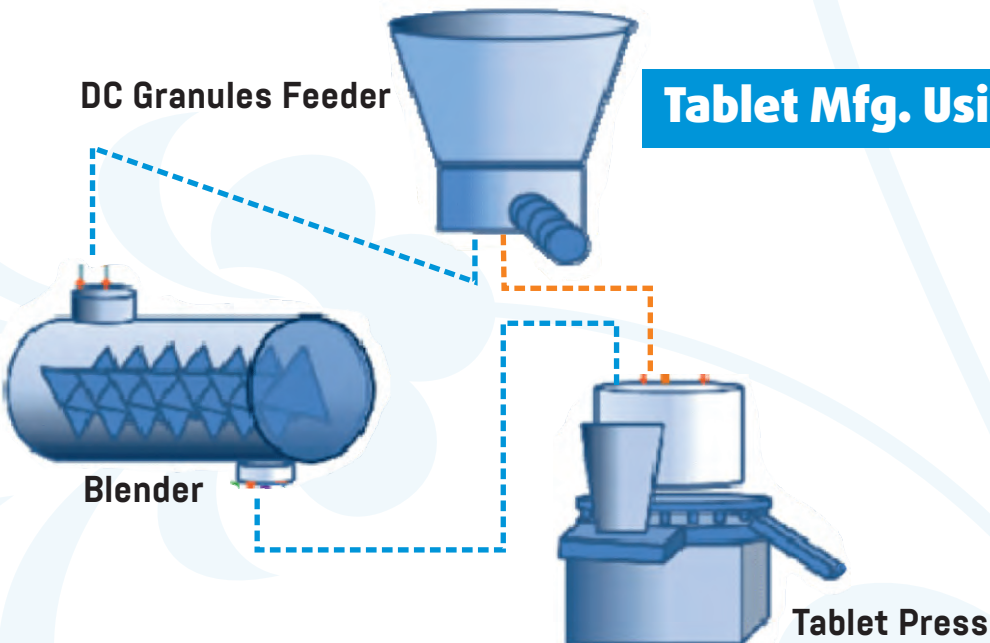

Choose Unijules and unlock a world of benefits: simplified operations, reduced costs, faster time to market, and complete peace of mind. Partner with us and unleash your full nutraceutical potential!

Let's Compare Process

Regular Tablet Manufacturing

Tablet Mfg. Using Our DC Granules

New Product Development As Per Your Demand

No two markets are alike. That's why we go beyond simply listening to your needs. We delve deep, understanding your regional preferences, regulations, and target audience aspirations.

From Your Vision, We Forge Your Success:

Our R&D experts become your partners, translating your market insights into winning formulations. We propose innovative ingredient combinations, dosage optimizations, and even tailor-made packaging solutions.

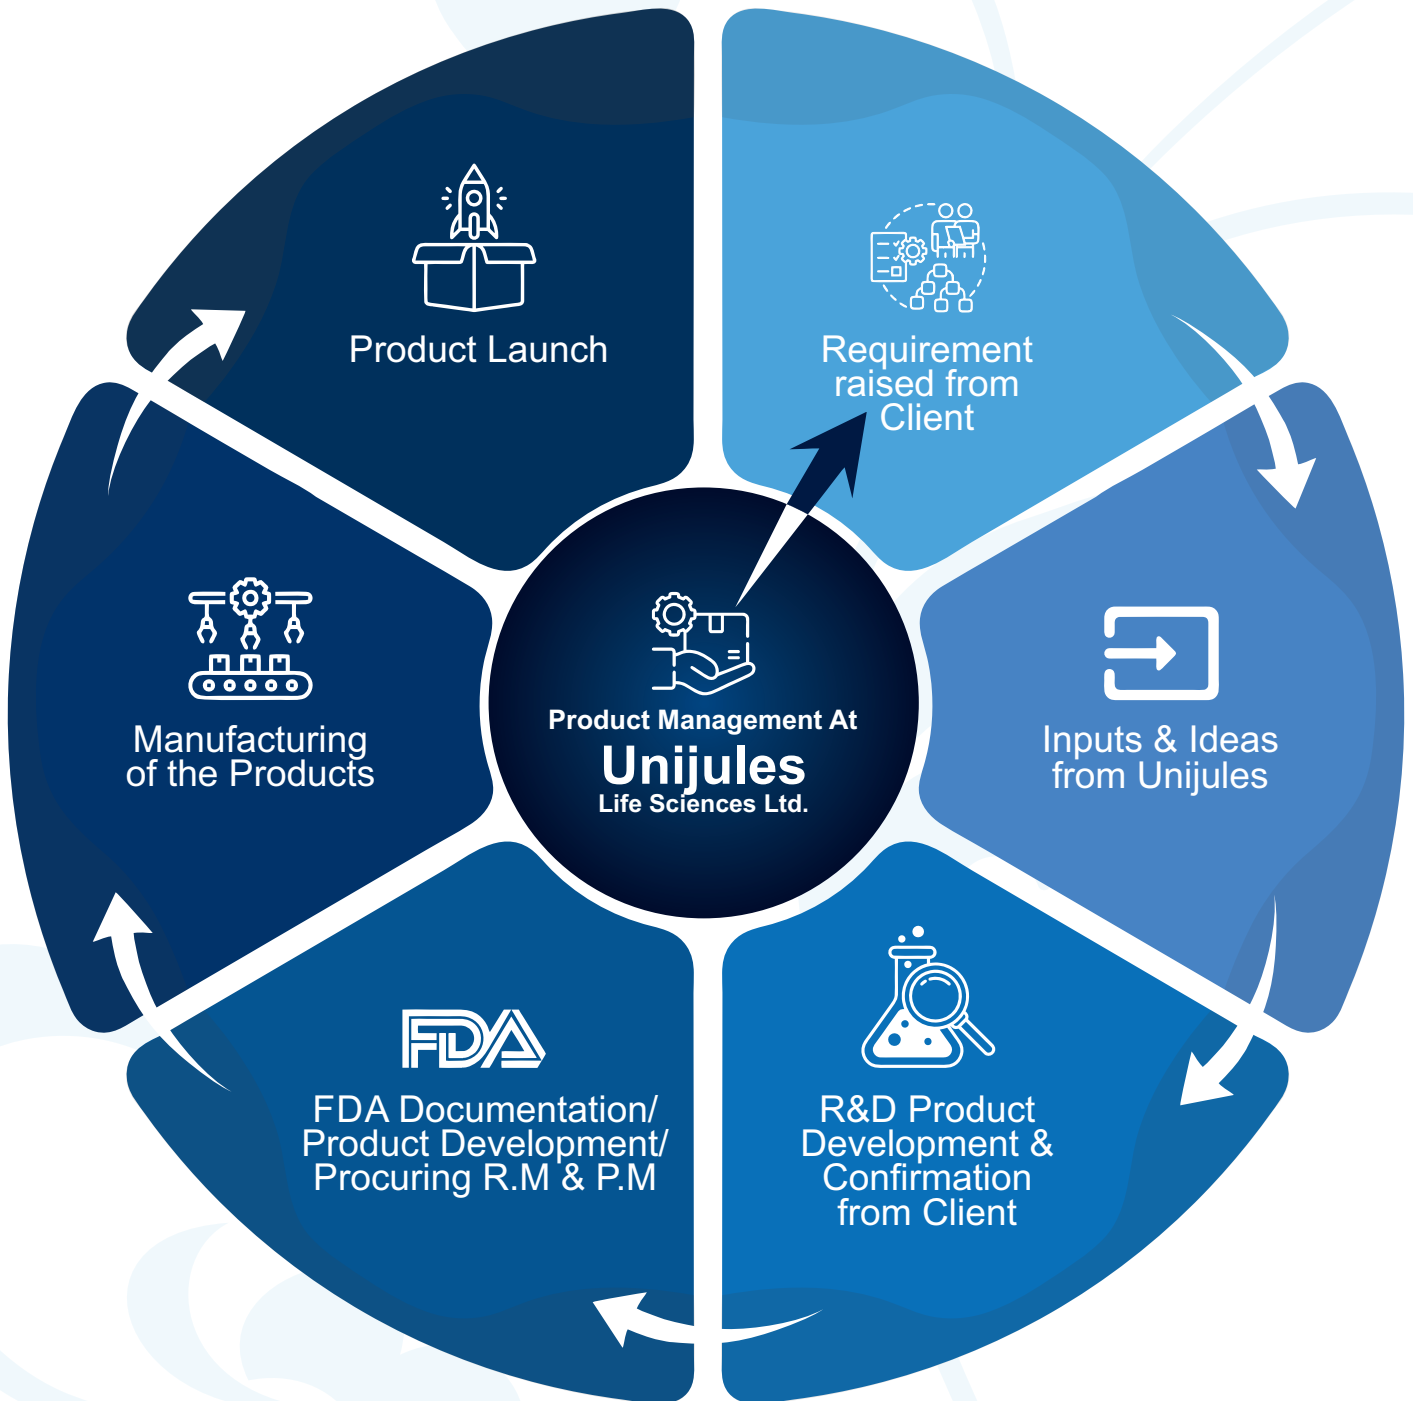

Navigating Compliance, Seamless and Swift:

Regulatory hurdles? We've got your back. Our team stays ahead of the curve, ensuring your product meets all local requirements, smoothing your path to market dominance.

The perfect synergy of your vision and our expertise:

Product Management @ Unijules

TAILOR MADE PRODUCT FOR YOUR MARKET , uniquely crafted to ignite your market share. This is not just about a product – it's about an unwavering commitment to your success.
